

2010 USDA Student Intern Welcome Ceremony

The video is 1hour/45 minutes and will take a few seconds to buffer on a standard computer.

Below are the instructions for turning the captions in the Windows Media Player:

Videos with captioning files will open in *Windows Media Player*. If you do not see captions it is probably because *Windows Media Player* has captions turned off.

To turn them on:

- Go to [Tools >> Options >> Security](#) and check the box [for Show Local Captions when Present](#)
- Then go to [Play >> Captions and Subtitles](#) and check [On if Available](#).

Additional Captioning Instructions: Go to Options & Security to select to Show Captions when Present – Also had to go to “Play” – Scroll down to “Lyrics, Captions, and Subtitles – the Select “On if Available”
